**on**

### **Dissemination of Book**

## **“Population Dynamics in Muslim Countries: Assembling the Jigsaw”**

### **From the Platform of Population Association of Pakistan (PAP)**

#### **ACKNOWLEDGMENT:**

Population Association of Pakistan (PAP) is pleased to acknowledge receipt of Rs.1,500,000/- from Swiss Agency for Development and Cooperation for distribution of 200 books "Population Dynamics in Muslim Countries: Assembling the Jigsaw" edited by Dr. Hans Groth and Dr. Alfonso Sousa-Poza, University of St. Gallen, Switzerland.

PAP Secretariat disseminated these books among the policy makers at the federal and provincial levels, academics, researchers and selected members of civil society who are well cognizant of the population dynamics confronting Pakistan and enabling them to understand the population issues dealt by either Islamic countries. The beneficiaries of this important book in particular, the United States Education Foundation, Plan International, University of Peshawar, The Institute of Strategic Studies, researchers, civil society, and policy makers have appreciated this effort made by PAP and affirmed that the book would definitely provide galvanize support for the population cause and to generate further interest in developing strategies for lowering fertility, empowering women, and ensuring the prerequisites for achieving the demographic dividend.

Furthermore, it will not only be a helpful resource for future Policy development and programmatic directions but will be beneficial for future training programs that include importance of population dynamics; their impact within graduate/under graduate education and awareness of the population issues in academia. This resourceful publication will further make our future planners sensitized to the gravity of the population issues. Policy makers informed of the linkage between population and development and the interventions needed for converting the existing youth bulge into demographic bonus for the country.

#### **FEEDBACK FROM THE BENEFICIARIES**

A number of beneficiaries appreciated the efforts behind the work made by the authors and editors while some of them expressed their appreciation in writing. The testimonials of appreciation are copied below received from various organizations:

P.O. Box 1128, ISLAMABAD 44000

25<sup>th</sup> July, 2013

Dr. Ali Mohammad Mir,  
Vice President

Dear Dr. Mir,

Thank you for your considerate gift. The book "Population Dynamics in Muslim Countries: Assembling the Jigsaw" will be a valuable addition to the USEFP library. I would like to express my gratitude, for the valuable resource and the sentiment behind the gift.

The Foundation strives to develop understanding and appreciation between Pakistan and the U.S through educational and cultural exchange. The United States Educational Foundation in Pakistan was established in 1950 by the governments of Pakistan and the United States. USEFP is one of 51 "Fulbright Commissions" located throughout the world.

Since 1951 when the first group of Pakistani grantees traveled to America and in 1952 when the first American grantees visited Pakistan, USEFP has fostered mutual understanding between the people of Pakistan and the United States. Nearly 4,000 Pakistanis and more than 800 Americans have participated in USEFP administered exchange programs.

I look forward to reading the book and thank you for taking an interest in our endeavors.

Best regards,

Rita Bruun Akhtar  
Executive Director  
The United States Educational Foundation in Pakistan (USEFP)

House No.7, Street 62, F-6/2  
Islamabad  
Tel: (051) 2877192

Dear Dr. Ali M. Mir,

Thank you for the Population Association of Pakistan's publication entitled, 'Population Dynamics in Muslim Countries: Assembling the Jigsaw' that we received yesterday.

It is a fact that demographic change and unprecedented population dynamics affect both the developed and developing countries bringing challenges related to their economy, wealth, health, political governance, and social structures of the country.

We thank the Population Association of Pakistan for the research conducted and wish you all the best.

Yours sincerely,

Rashid Javed  
Country Director

**Subject: Organization of Dialogue with Policy Makers on “Population Dynamics in Muslim Countries”**

Dear Mr. Saleem Raza,

I hope this letter finds you well. Firstly, let me introduce the Population Association of Pakistan (PAP). The Association is a non-profit, non-political, professional organization established in 2000 with the main objective to promote policy level discourse and strengthen the population sector by providing a forum to subject experts for sharing, scientific knowledge and experiences in the different disciplines of population and development.

During the past 14 years it has been able to generate tremendous interest regarding the centrality of population in all aspects of development. It has an impressive membership of experts in the field of demography, public health and social sciences.

Population Association has recently received funding from Swiss Development Cooperation to distribute a very important book titled “**Population Dynamics in Muslim Countries: Assembling the Jigsaw**” edited by Dr. Hans Growth and Dr. Alfonso Sousa-Poza, University of St. Gallen, Switzerland.

This book was launched on October 24, 2012 sponsored by the Population Council in collaboration with the Embassy of Switzerland. The launch included a panel discussion on “*Demographic Issues in Muslim Countries: focusing on Pakistan*”. The Council invited a selected group of panelists who held discussions on population and labor force issues.

After the seminar there was a consensus amongst the stakeholders including government representatives, researchers, academia that there was a need to disseminate the book to selected academia, research institutions, policy makers and members of the civil society working on population issues.

We hope this book will help to galvanize support for population planning and to generate further interest in developing strategies for lowering fertility, empowering women, and ensuring prerequisites for achieving the demographic dividend.

Dr. M Sarwat Mirza  
[sarwat.mirza@hands.org.pk](mailto:sarwat.mirza@hands.org.pk)

Population growth particularly in Muslim countries including Pakistan is playing its role in reshaping the political and social landscape. There is a critical relationship among demographic dividend, demographic transition, labor market challenges, health care, universal education and gender issues. These challenges and issues have policy implications at country and provincial level.

Population Association of Pakistan is committed to discuss these issues with development partners including the Government and civil society organizations, to develop consensus for a future strategy.

We would be honored and pleased, if your department could take the lead and organize a **“Dialogue with Policy Makers on Population Dynamics in Pakistan”**. Our partner organization HANDS will play a collaborative role and provide facilitation.

Please let me know when it would be convenient for you next week to meet with me & Dr. Shaikh Tanveer Ahmed, CEO, HANDS at your office in Karachi to plan for this dialogue.

Best regards

Sincerely

Begum Shahnaz Wazir Ali  
President  
Pakistan Association of Pakistan

***Subject: Dissemination of Book “Population Dynamics in Muslim Countries: Assembling the Jigsaw” from the Platform of Population Association of Pakistan (PAP)***

*Dear Sir/Madam,*

*I hope this letter finds you well. Firstly, let me introduce you to the Population Association of Pakistan (PAP). The Association is a non-profit, non-political, professional organization established in 2000 with the main objective to promote policy level discoverer and strengthen the population sector by providing a forum to subject experts for sharing, scientific knowledge and experiences in the different disciplines of population and development.*

*During the past 14 years it has been able to generate tremendous interest regarding the centrality of population in all aspects of development. It has an impressive membership of experts in the field of demography, public health and social sciences.*

*Population Association has recently received funding from Swiss Agency for Development and Cooperation to distribute a very important book titled “**Population Dynamics in Muslim Countries: Assembling the Jigsaw**” edited by Dr. Hans Growth and Dr. Alfonso Sousa-Poza, University of St. Gallen, Switzerland.*

*This book was launched on October 24, 2012 sponsored by the Population Council in collaboration with the Embassy of Switzerland. The launch included a panel discussion on “**Demographic Issues in Muslim Countries: focusing on Pakistan**”. The Council invited the selected group of panelists who withheld discussion on population and labour force issues.*

*After the seminar there was a consensus amongst the stakeholders including government representatives, researches, academia that there was a need to disseminate the book to selected academia, research institutions, policy makers and members of the civil society working for the population cause. We believe that this book will be very useful for:*

- *Better aware of the population dynamics confronting Pakistan and how these issues have been dealt by other Islamic countries;*

- *Academia can make use of the contents in developing their training sessions and modules including importance of population dynamics;*
- *Civil society can use the evidence to galvanize support for dealing with the population issue using the precedents of Islamic countries; and*
- *Future policies reflect factoring in population issues as a development imperatives*

*I am pleased to share with you one copy of this important book along with a brief introduction for your information, record and best use in the resource center/library of your organization/institution.*

*We hope this book will be helping tool to galvanize support for the population cause and to generate further interest in developing strategies for lowering fertility, empowering women, and ensuring the prerequisites for achieving the demographic dividend.*

*Best regards*

*Dr. Ali M Mir  
Vice President  
Population Association of Pakistan*

*Enclosures:*

*Book “Population Dynamics in Muslim Countries: Assembling the Jigsaw” along with brief introduction.*
